

Estimate Request for Canada Pension Plan Retirement Pension and Post-Retirement Benefit

You may also visit the Service Canada website at servicecanada.gc.ca/calculator to use the online retirement calculator to estimate your Canada Pension Plan retirement pension and post-retirement benefits.

This request form is to obtain an estimate of your Canada Pension Plan (CPP) retirement pension or of your Post-Retirement Benefit, or both. The following information is intended to help you complete sections 5 and 8.

Section 5

When you request an estimate of your Canada Pension Plan retirement pension, **we automatically calculate the amount you will receive at age 65** when you become entitled to your full pension. However, you can receive a reduced pension as early as age 60 or begin receiving an increased pension after age 65 up to age 70. You can choose any three retirement ages between 40 and 70 for which you would like estimates.

NOTE:

Your retirement pension is **reduced** by a set percentage for each month before age 65 that you choose to begin receiving it. **This reduction is permanent.** From 2012 to 2016, the amount of this reduction will gradually increase from 0.52% to 0.6% per month. This means that if you start receiving your retirement pension in 2016 at age 60, it will be 36% **less** than if you had taken it at 65. The reduction percentage in effect the year your retirement pension begins remains in effect for as long as you receive the benefit, and will not change.

Year	% of monthly reduction	Maximum reduction (%) (if pension is taken at age 60)
2012	0.52	31.2
2013	0.54	32.4
2014	0.56	33.6
2015	0.58	34.8
2016	0.60	36

We **increase** retirement pensions paid to people who begin receiving the pension when they are **over** age 65 by 0.70% for each month the person is **over** 65 years of age up to age 70. This means that if you start receiving your CPP retirement pension in 2013 at age 70, it will be 42% **more** than if you had taken it at 65.

CPP benefits are adjusted in January each year if there is an increase in the cost of living as measured by the Consumer Price Index. Your monthly payment will **not** decrease if the cost of living goes down.

Section 8

You may be eligible for a Post-Retirement Benefit if you are 60 to 70 years of age and you are working or return to work in Canada (outside Quebec) while receiving a retirement pension from the Canada Pension Plan or Quebec Pension Plan.

The Post-Retirement Benefit will allow you to increase your retirement income even if you are already receiving the maximum Canada Pension Plan pension amount. It is a secure monthly benefit that will rise with increases in the cost of living and be payable for the rest of your life.

You do not need to apply for the Post-Retirement Benefit. If you are eligible, it will be paid to you automatically.

For each year that you make a valid contribution to the Canada Pension Plan while receiving your retirement pension, you become eligible for a new Post-Retirement Benefit the following January. Like the Canada Pension Plan retirement pension, the amount of each Post-Retirement Benefit will depend on your **level of earnings**, the amount of Canada Pension Plan **contributions** you made during the previous year, **and your age** as of the effective date of the Post-Retirement Benefit.

Each new Post-Retirement Benefit will be added to any previously earned Post-Retirement Benefits and to any other Canada Pension Plan benefits to which you are entitled.

Contributions to the Post-Retirement Benefit are mandatory for working CPP retirement pension recipients under age 65 and their employers. If you are self-employed, you will have to contribute both the employee and employer portions.

If you work in the same year that your retirement pension begins, we will determine which portion of that year's contributions will go toward the retirement pension and which portion, if any, will go toward the Post-Retirement Benefit.

If you are at least 65 years of age, you can choose not to contribute. At age 70, you will stop making CPP contributions. To find out more about how to stop contributing to the CPP, visit the Canada Revenue Agency Web site at www.cra.gc.ca/cpp or call 1-800-959-8281.
